### **About us**

We have a mandate to rehabilitate, re-orient and equip them with life-building and supporting skills so that they can live fulfilled lives and become life-transforming agents to others and the environment.

*Evang. Enuwa Margaret Efada (Founder)*

This Foundation was established by Evang. Efada Margaret Enuwa in September 2003 in Otukpo, Benue State, Nigeria. She began with reaching out to single and teenage mothers by training and rehabilitating them. Since then, the Foundation has over the years reached out to children, teenagers and youths. We hope that through training, sensitization, counseling and challenge, we will instill positivity and stir a drive towards the conception, determination and fulfillment of individual dreams, thereby bringing about territorial and indeed national transformation.

### **Vision**

At Restorer of Paths Care Foundation, ***we envision a community of healthy young men and women living godly and positively, driving towards fulfillment of purpose and whose way of life is bringing transformation to their society.***

We believe that by imparting positivity, values and life-supporting skills to the ones mentioned above, we will not only be bringing about individual development and destiny fulfillment, but transformation of the whole society the exemplary lifestyle of these fulfilled young ones.

## Mission

In order to bring to pass the above stated vision ***Restorer of Paths Care Foundation will seek to reach out to young people irrespective of their age, background, testimony or experience, re-orient them by teaching them godly principles and empower them with life-building and life-supporting skills after which they will be commissioned to become life-transforming agents to their environment.***

Our basic task therefore is to restore and reinforce self-worth and self-value, bring people to see and believe in pursuing a purpose for their lives and empower them both with knowledge and skill to pursue their dreams. The testimony of their success will then become a challenge for others.

## Finance

The entire work at Restorer of Paths Care Foundation is mainly funded by donations from individuals (especially some members of the BOT) and the Founder Evang. Enuwa Margaret Efada. These are however not sufficient to carry out all the programs and responsibilities of the Foundation. We therefore call on public spirited individuals and organizations to support us as we carry out this task of fighting the moral decadence that is decaying today's society and raise better people for a better society.
